where *GalleryID=1* by definition (for Home Page site root)

**tblGallery.  
HeaderImageURL** →

**tblGallery.Title** →

**tblGalleryItems.  
ParentGalleryID**  
records that point to  
(this) *GalleryID*  
(Home Page == 1)

The screenshot shows the Home Page 'Gallery' interface. At the top, there's a header with navigation links: 'CONTRIBUTOR', 'NEWSLETTER', 'MUSICIANS', 'EVENTS', 'MEDIA', and 'COLLECTIONS'. Below the header is a large featured image titled 'Summer Jazz Festivals in New England'. Underneath this is a section titled 'MUSICIANS' which contains a grid of musician profiles. Each profile includes a thumbnail image, a name, and a short bio. The profiles shown are Tony Zeno, Bruce 'Beats' Mustilli, Jaki Byard, Linda Dagnetta, Paul Broadnax, and Milton 'Mama' Moffat. Arrows from the text labels point to specific elements: 'tblGallery.HeaderImageURL' points to the header image, 'tblGallery.Title' points to the 'MUSICIANS' section title, and 'tblGalleryItems.ParentGalleryID' points to the grid of musician profiles. Additional arrows point to 'PageTitle' (the 'MUSICIANS' title), 'ThumbURL (&ThumbAltText)' (the thumbnail image), and 'CaptionText (HTML tags OK)' (the bio text).
